

## **Public Lecture by Professor Jane Noyes, Bangor University**

**Date:** Friday 12 May 2017

**Time:** 10.50 -12:00

**Venue:** B321, Bournemouth House

*Getting the message across about Zika: using qualitative evidence to inform the global WHO risk communication guidelines for public health emergencies, and lessons learned for intervention development.*

Jane is the Professor of Health and Social Services Research and Child Health at Bangor University. She specialises in child health and social care research. She is also an expert in methodology, including complex intervention development and evaluation, and qualitative and mixed method systematic review methodology. Jane is Lead Convenor of the Cochrane Qualitative and Implementation Methods Group and Editor of the Journal of Advanced Nursing.

Jane's talk will be followed by a short lecture by of Queen's University Belfast on 'Social technology solutions to postnatal care in Brazil'

Fiona is a Lecturer in the School of Nursing and Midwifery and the Centre for Evidence and Social Innovation, Queen's University Belfast. Her research focuses on enhancing maternal and child health and wellbeing. Her expertise includes conducting economic evaluations alongside intervention-based studies.

Complimentary lunch will be served at 12.30pm

**Please RSVP to Sam Porter** at [porters@bournemouth.ac.uk](mailto:porters@bournemouth.ac.uk)

This lecture is part of the 'Social technology solutions to postnatal care in Brazil' project funded by the British Council through the Newton Fund.
